

Indane Gas

Indane gas booking

Indane gas has its name big all over the country for providing Liquid Petroleum Gas cylinders for both domestic as well as commercial use. Its services are widely spread across India. [Indane Gas](#) has been successful in satisfying and fulfilling the customer needs well. It offers many ways through which a customer can book his/her gas cylinder. These services are listed below with their required information.

All prayers seem to be answered for Indane LPG consumers in Bangalore. Now there will be no worries of standing in long queues, holding on to the telephone lines for booking or running after the delivery boy for an LPG refill. Indian Oil Corporation (Indian Oil) has introduced an automated Voice Response system (IVRS) for booking LPG refills in the city.

All 58 Indane outlets will have this facility. Not only bookings but complaints are also registered 24x7 in the IVRS. Consumers can simply dial 8970024365 to avail the service. Registered consumers can type "REFILL" and send it to the IVRS. The system will respond via SMS with various details like booking number, refill readiness and confirmed refill delivery. The new users register themselves dialing the same number following instructions on the IVRS for registration and then booking.

Indane gas apart from online booking can be booked in other ways too. The cylinder can be booked through sending an SMS. To use this facility you need to register your mobile number through IVRS. After the registration, type IOC on your mobile and send it to the distributor number of your area. You will then get an SMS stating your [Indane gas online](#) booking details.

A multi-functional regulator (MFR) has also been introduced by Indian Oil which has features for

increased safety. It is an enhanced user friendly application which would replace the common domestic pressure regulator. It has different safety applications like complete excess flow shut off, child lock and leak detection mechanism. It also has besides flow recharge plunger, a low level indicator with electronic or analog display. For any further queries you can get in touch with the distributors or call Indian Oil Customer Service on numbers 080-22130421 or 22239473
